Techmanjari participant

PROJECTS

Legal Awareness System
□ It is SSIP hackathon project. In this project we created website for spreading legal awareness in the society. Website contains all the laws & regulations and punishment detail for the particular crime and it also describes the sections for the crime. We developed this project by HTML, CSS, Bootstrap 4, Python, PHP, My SQL database, etc.

Event Horizon
□ Event horizon is the website for the organizing and managing of large or small scale events such as festivals, conferences, ceremonies, formal parties, concerts or conventions and inspiring events, etc. Considering the existing system problems related to organizing an event here are developing an android website. The website will be developed using PHP and HTML for designing.

Hot & Cold Water Dispenser
□ This is IOT based project. It is voice based project, it dispense hot or cold water according to user command. We used ultrasonic sensor, arduino, microcontroller, mic, etc.

Portfolio Website
□ Made by HTML, CSS, Javascript. It describes my portfolio information. It is responsive website. Person can see my resume and can know about my technical knowledge.
